***A note regarding historical estimates**

Anfield is not treating these historical estimates as current mineral resources or mineral reserves. A qualified person has not yet done sufficient work to classify the historical estimates as current mineral resources or mineral reserves. The historical estimates referenced herein are from reports prepared by well-known mineral exploration and mining consulting firms using Mineral Resource CIM standards and terminology. Thus, the Company considers the historical estimates to be reliable. Anfield intends to work with mineral exploration and mining consulting firms to complete sufficient verification drilling to bring the historical estimates to a Current Mineral Resource.
